OFFICE OF CHILD SUPPORT ENFORCEMENT

In an effort to promote greater parental responsibility for the support of children and to reimburse Federal and State government for expenditures of public assistance, the Child Support Enforcement Program was established in 1975 through Part IV-D of Federal Public Law 93-647. The emphasis of this law was to assist in the collection of support for children of Aid to Families with Dependent Children (AFDC) recipients. The Department of Social Services (DSS) was named as the single state agency to administer and supervise the administration for the Federal mandates. Until the merger of Child Support Enforcement Legal Division into the DSS in March 1985, the DSS signed cooperative agreements with the office of the Attorney General for the provision of legal and investigative services. Through the Uniform Family Court System, the Clerks of Court provide for local collection and enforcement of child support.

Child Support Enforcement is a proven cost effective approach to assist dependent children and its effectiveness has been enhanced through adoption of the Federal 1984 Child Support Amendments. The Amendments, which provide for assistance in the enforcement of support for all children, proposed sweeping changes in State Child Support Law. States were mandated to adopt certain enforcement techniques. While South Carolina had enacted a State Tax Intercept Program for both AFDC and Non AFDC cases in 1983, the General Assembly, during the 1985 Legislative Session approved several pieces of legislation required for South Carolina to comply with the Federal Law. Included among the legislation are: Wage Withholding; Interstate Wage Withholding, and Automatic Assignment of Rights in AFDC cases.

Child Support Enforcement involves specific functions devoted to securing payment of financial support from parents with dependent children. These functions include establishing a case file, locating absent parents, establishing paternity, assessing financial responsibility, establishing an order of support, collecting and distributing funds and enforcing support orders.

On the following pages, six graphs are presented which depict the performance of the Child Support Program at various stages of a child support case. These steps are briefly described below:

1. Collection and Distribution - This function consists of recording and monitoring payments and distributing money collected.

2. Establishing an Order of Support - Sometimes an order of support can be established with the cooperation of the absent parent; other times a court hearing is necessary.

3. Referrals - The referral function includes all activities provided to open a child support case. The referral and application forms are screened to determine if the information provided is complete and accurate. Appropriate contacts are made to secure all needed information and to set up the case record.

4. Locate - Locate involves all activities performed to locate absent parents or their assets. Local, State, and Federal Services are used.

5. Establishing Paternity - This step is necessary if paternity has not been previously determined. Although voluntary cooperation is first attempted, sometimes court action must be initiated.
